- Tools/Technologies: Node.js, Handlebar, Storybook.js, AJAX, JSON, Redux, TailwindCSS
- Design Tools: Photoshop, Illustrator, Sketch
- Methodologies: Agile, Scrum, Waterfall
- Testing Tools: Jasmine, Karma
- Version Control: Git

Professional Experience:

UI Developer

Vision IT USA Inc, Herndon, VA

Oct 2023 - Present

- Developed AngularJS apps utilizing Directives, Controllers, Filters, and Services.
- Created web pages using HTML, CSS, JavaScript, React, Redux, Node.js, Angular 14, TypeScript, and Bootstrap.
- Implemented Redux for predictable application state management and performed unit testing with Jasmine, Karma, and Jest.
- Mentored junior developers and ensured code quality through Agile practices.
- Integrated frontend with RESTful APIs and participated in Scrum activities.

Software Developer

Rocket Mortgage, Detroit, Michigan.

Aug 2020 - Sep 2023

- Enhanced JavaScript applications with React, Redux, and ES6, improving user satisfaction.
- Developed complex forms and integrated external APIs, ensuring robust functionality.
- Led frontend development using Angular, TypeScript, Material Components, HTML5, CSS3, and SASS.
- Improve components and dialogs for existing codebases and refactored areas of the code to improve long-term maintainability and further additions.
- Managed releases and supported cross-functional teams, optimizing development workflows.
- Mentored new joiners and conducted knowledge transfer sessions.
- Implemented Circle CI/CD pipeline for automated testing and deployment.
- Collaborated closely with QA teams to identify and resolve bugs, ensuring robust product releases.

UI Developer

Niktor LLC Client: Procter and Gamble

Sep 2019 – Aug 2020

 Built custom portals using ReactJS, Redux, HTML, and CSS, adhering to web compliance and ADA standards.

- Developed responsive websites across browsers and devices, enhancing user engagement with animations.
- Collaborated with backend on CMS-based platforms and contributed to product feature enhancements.
- Collaborated with a distributed team of 6+ members to successfully deliver pivotal initiatives, including the development of a new platform feature for segmentation aimed at enhancing targeted email campaigns.
- Actively participated in troubleshooting and resolving production issues, ensuring seamless product releases.
- Contributed to multi-language translations for campaigns, optimizing global reach and user engagement.

UI Developer

UCSF Healthcare Center.

Aug 2018 – Aug 2019

- Developed dashboards and responsive UI using Tableau, HTML, CSS, JavaScript, and Angular.
- Increased application performance through meticulous optimization techniques like lazy loading, resulting in enhanced speed, responsiveness, and overall user experience.
- Integrated frontend with backend services and maintained clean code using Git.
- Contributed to server-side applications using Node.js and GraphQL for API integrations.

Front end Developer

Webcom Systems

Dec 2015 - Jan 2016

- Analyzing the requirements, designing, developing, and implementing new functionalities for their web-based application.
- Experience in Object Oriented JavaScript (OOJS) and various MVC JavaScript frameworks such as Node.js, AngularJS, and Express.JS.
- Worked on SOAP and REST web services.
- Lead the development and implementation of accessible frontend components, ensuring highquality and user-friendly solutions.

Education:

- Master of Science in Information Technology, Golden Gate University, San Francisco, CA (Jan 2017 - May 2019)
- Bachelor of Engineering in Computer Science, Punjab Technical University, India (Aug 2012 May 2016)
